

Sridhar S

B.Tech — Computer Science (Data Science)

Gudipalli(V), Mulbagal(T), Kolar, Karnataka | 6361461952 | sridharreddyrudra@gmail.com

Objective

Motivated B.Tech student specializing in Computer Science with a focus on Data Science. Passionate about AI-powered applications, GenAI-driven analytics, and blockchain security. Seeking opportunities to apply my skills in solving real-world problems and contributing to innovative teams.

Education

B.Tech — Computer Science and Engineering (Data Science)

Presidency University | CGPA: 8.22

Experience

Fresher — No prior work experience.

Projects

BioSync — AI Health Tracker | [Live Demo](#)

- Built a full-stack AI-powered health tracking web application
- Tracks and analyzes user health metrics with intelligent insights and recommendations
- Deployed live on Render — biosync-health-app-1.onrender.com

Real-Time MEV Attack Detection Dashboard — Ethereum / DeFi

- Built a real-time dashboard to detect and prevent MEV (Maximal Extractable Value) attacks on the Ethereum blockchain
- Focused on protecting DeFi users from predatory trading practices such as front-running and sandwich attacks
- Applied AI-based detection logic across Blockchain, AI, and Digital Payments domains
- Won 1st Prize at BIZTECH PITCHATHON – The Future of FinTech, INNOVATEX 4.0, Presidency University (April 8, 2026)

Achievements & Awards

1st Prize — BIZTECH PITCHATHON, INNOVATEX 4.0

Won first place at a FinTech startup pitch competition at Presidency University (April 8, 2026), presenting a real-time MEV Attack Detection system for Ethereum. Competed against teams tackling financial challenges using Blockchain, AI, and Digital Payments.

Certifications

Tata iQ — GenAI Powered Data Analytics (Forage Job Simulation)

- Completed an AI-powered data analytics and strategy simulation for the Financial Services team at Tata iQ
- Conducted Exploratory Data Analysis (EDA) using GenAI tools to assess data quality, identify risk indicators, and structure insights for predictive modeling

- Proposed a no-code predictive modeling framework to assess customer delinquency risk using GenAI-driven model logic
- Designed an AI-driven collections strategy using agentic AI and automation, incorporating ethical AI principles and regulatory compliance

Skills

Programming (Basics)

- Python — basic scripting and data tasks
- SQL — basic querying and database operations
- C — programming fundamentals
- Java — basic object-oriented concepts

Data Science & AI

- Exploratory Data Analysis (EDA) with GenAI tools
- Predictive Modeling concepts — no-code and AI-assisted frameworks
- Data Visualization — Matplotlib, Seaborn (basics)
- Jupyter Notebook, Google Colab

Other

- Blockchain Fundamentals — Ethereum, DeFi, MEV concepts
- Web Application Development & Deployment (Render)
- Version Control — Git & GitHub (basics)

Languages

- English — Professional proficiency
- Kannada — Native
- Telugu — Native

Declaration

I hereby declare that all the information furnished above is true and correct to the best of my knowledge and belief.
